Section 1 – Introduction

This directory provides a list of ATRIO Health Plans’ providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You will have to choose one of our plan providers that are listed in this directory to be your Primary Care Physician (PCP). The term “PCP” will be used throughout this directory. Generally, you must get your health care coverage from your PCP.

The “plan providers” listed in this directory have agreed to provide you with your health care coverage. You may go to any of our plan providers listed in this directory; however some services may require authorization. If you have been going to one plan provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-plan providers.

What should you do if you have bills from non-plan providers that you think should be paid by ATRIO Health Plans?

We cover certain health care services that you receive from non-plan providers. These include care for a medical emergency, urgently needed care, renal dialysis (kidney) that you get when you are outside the plan’s service area, care that has been approved in advance by ATRIO Health Plans and any services which were ordered covered through an appeals process. If a non-plan provider asks you to pay for covered services, please contact us at:
